

Matt Skiba (Alkaline Trio) - Good F***g Bye (Album: Split) (2002)**

[A, D, E, D]

So you broke down, Trying to leave town
I broke down crying on your return
You left me feeling awful
I'll never see your face again

You made for a bad lover's liver
You sold all the covers and busted my head
You made me such an ass hole
I wish we'd never met

**C: I'm tired of being bored
I'm through with the headaches at night
And my hands they tremble like earthquakes
Under the table under the daytime sky
Good f%*&^\$# bye**

And when you lose hope, It's hard to cope
Watching the tyranny with sober eyes
The daybreak and sunset
All hours in between are spent murdering time

You made for a bad lover's liver
You sold all the covers and fucked up my head
You made me such an ass hole
I wish we'd never met

[chorus]
