

Nicky Youre, Dazy - Sunroof [Capo: 1st fret]

[D, A, E, F#m] x2

La da la da da, la da da da etc.

I got my head out the sunroof,
I'm blasting our favorite tunes,
I only got one thing on my mind,
You got me stuck on the thought of you,
You're making me feel brand new,
You're more than the sunshine in my eyes

You got those, pretty eyes in your head, you know it,
You got me, dancing in my bed so let me show it,
You are exactly what I want, kinda cool and kinda not
Wanna give myself to you

*Yeah, we're driving down the freeway at night
I only got one thing in the back of my mind (you got me stuck on the thought of you)
I'm feeling like this might be my time to shine
With you, with you, with you*

[Chorus]

I got my head out the sunroof
Oh-whoa, oh-whoa, ooh
You got me stuck on the thought of you
Oh-whoa, oh-whoa, ooh

*Yeah, we're driving down the freeway at night
I only got one thing in the back of my mind (you got me stuck on the thought of you)
I'm feeling like this might be my time to shine
With you, with you, with you*

[Chorus]

La da la da da, la da da da etc.
