

Arcade Fire - Everything Now (Album: Everything Now (2017))

[116 BPM] [key: C key and a major mode]

**F, C, G [ repeat throughout entire song ]**

Every inch of sky's got a star, Every inch of skin's got a scar

I guess that you've got everything now

Every inch of space in your head, Is filled up with the things that you read

I guess you've got everything now

And every film that you've ever seen, Fills the spaces up in your dreams

That reminds me... (Everything now, Everything now)

Every inch of road's got a sign, And every boy uses the same line,

I pledge allegiance to everything now,

Every song that I've ever heard, Is playing at the same time, it's absurd

And it reminds me, we've got everything now,

We turn the speakers up till they break, 'Cause every time you smile it's a fake!

Stop pretending, you've got..

**(Everything now!) I need it, (Everything now!) I want it**

**(Everything now!) I can't live without, (Everything now!) I can't live without**

**(Everything now!), (Everything now!)**

**Everything now**

Every ancient road's got a town, Daddy, how come you're never around?

I miss you, like everything now,

Mama, leave the food on the stove, Leave your car in the middle of the road,

This happy family with everything now,

We turn the speakers up till they break, 'Cause every time you smile it's a fake!

Stop pretending, you've got

**[Chorus x2]**

**“Til every room in my house is filled with shit I couldn't live without”**

**{Break : La La La La La La ; La La La La La La}**

**Stop pretending, you've got....**

**[Chorus x2]**

**Every inch of space in my heart, is filled with something I'll never start,**

**The ashes of everything now,**

**And then you're black again, Can't make it back again, From everything now**
