

Cold War Kids - Can We Hang On (Album: L.A. Divine (2017))

D, G / D, G / D, A

I've come here nine times asking you to not make it ten

I'm peeling off all the honor that protected my skin

Apologize, I'm laying down my ego to rest

Would you be mine forever? Just in case it exists

I think about the old days, What we've been through to survive

Do we get better with time?, Tell me I'm wrong

Looking back to the start, Who we were when we met

This box of pictures tells a story

When we fight, we forget, And I can barely recognize us

Back then we were obsessed

Can we cut out this madness and get back to the best?

[Chorus]

I'm looking to you always, We follow the same guiding light

Passing like ships in the night, Can we hang on? Can we hang on?

[Post-Chorus]: Bm, G / D, G / D, A

Can we hang on? [x4]

[Bridge]

This could've gone either way, If one of us had walked

If I'd gone off, and you caved in, And we broke it off

I'd be lost, I'd be chasing some broke down dream

I'd be bored to death, But we cannot stay forever young and out of our heads

Out of our heads

[Chorus 3]

I think about tomorrow, If I can get through tonight

I know that we'll be alright, Can we be strong?

I'm looking to you always, Even though we're like ships in the night

Don't you go passing me by, Can we hang on? Can we hang on?

[Post-Chorus]

D, G / D, G / D, A

Bm, G / D, G / D, A

You can find it; If you're dying to live,

If you want to know the secret, hang on, [x4]
