[Gm, F, C, D#]

You don't throw your life away, Going inside

You get to know who's watching you, And who besides you reside

In your body, Where you're slow, Where you go doesn't matter

'Cuz there will come a time, When time goes out the window

[A#, F, C, D#]

And you'll learn to drive out of focus, in you

and if anything unfolds, It's supposed to

[INTRO]

[Gm, F, C, D#]

You don't throw your time away, sitting still

I'm in a chain of memories, It's my will

And I had to consult some figures of my past

And I know someone after me, Will go right back

[A#, F, C, D#]

I'm not telling a view, I've got this night to unglue

I moved this fight away, By doing things there's no reason to do
