When I wake up; I can't even stay up

I slept through the day, oh; I'm not getting younger

But when I'm older; I'll be so much stronger

I'll stay up for longer; Meet me at our spot

Caught a vibe; Baby, are you coming for the ride?

I just wanna look into your eyes; I just wanna stay for the night,

When we take a drive; Maybe we can hit the 405

Hypnotized by the lights; Man, this must be the life

When I go to sleep; I can't even fall asleep

Something's got ahold of me; Feel it taking over me

But when I'm older, I'll be moving onward

I just got a drunk text; (Meet me at our spot)

[chorus]

Meet me at our spot, Got something I wanna show you

Meet me at our spot, They can't find us there

Meet me at our spot, Got something I wanna show you

Meet me at our spot, They can't find us there

[chorus]
