

The White Stripes - Take, Take, Take (Album: Get Behind Me Satan (2005))

G Bb F
I was sittin' there, I had a comfortable chair

G
And that was all that I needed

G Bb F
Then my friend offered me a drink for us to share

G
And that was all that I needed

Bb5 C5 Bb5 D5 F5' D5
Well, then I felt at ease; But then, I'm not too hard to please

F5` (F#5) G
I guess you couldn't call me greedy

And I was shocked to look up and see Rita Hayworth there
In a place so seedy

She walked into the bar with her long red curly hair

And that was all that I needed

And I said to my friend

"Good God we're lucky men; Well, to just even see her"

CHORUS:

(Played 2x):

1 + 2 + 3 + 4 + 1 + 2 + 3 + 4 + 1 + 2 + 3 + 4

G5, G5, Bb5, Bb5, F5, F5, Bb5, Bb5, F5, F5, Bb5, Bb5, F5, G5
Take, take, take! (x3)

Yeah, I could not resist, I just had to get close to her

And that was all that I needed

I walked and loomed around her table for a while

And that was all that I needed

Then I said, "I hate to bug you, Ma'am

But can I have your autograph?"; And that was all that I needed

She pressed her lips against a white piece of paper
And that was all that I needed
Then I saw what she wrote, my heart is in my mouth
And that was all that I needed
Then she handed it to me
And I think that she could see; That that was all that I needed

I started to walk away, but then I remembered, hey
I forgot to get a picture
So I asked her one more time, could I have another favor
That was all that I needed
She was kind to pose with me
Then I know my friends would see; My celebrity meeting

[CHORUS]

She turned and said to me, "I need to go to sleep"
And it seemed so mean
It's almost as if she did not appreciate
How cool I was being
She said, "Goodnight" and walked away
And I didn't know what to say; I just couldn't believe it

Well it's just not fair, I wanted to get a piece of hair
And that was all that I needed
Or maybe a kiss on the cheek, I wouldn't wash it for a week
That would be all that I needed
But she didn't even care
That I was even there; What a horrible feeling
